

## **Consent and Release Agreement for:**

## Micro Pigmentation/Permanent Makeup/Semi-permanent Makeup

This form is designed to give information needed to make an informed choice of whether or not to undergo a Micro Pigmentation/Permanent Makeup/Semi-Permanent Makeup procedure. If you have any questions, do not hesitate to ask.

Although Micro Pigmentation/Permanent Makeup/Semi-Permanent Makeup is effective in most cases, no guarantee can be made that a specific client will benefit from the procedure.

All instruments that enter the skin or come in contact with body fluids are disposable, and disposed of after use. Cross contamination guidelines are strictly adhered.

Generally, the results are excellent. However, a perfect result is not a realistic expectation. It is usual and advised to expect a Touch-Up after healing is completed.

Initially, the color will appear more vibrant or darker compared to the end result. Usually, within 5-7 days, the color will fade, soften, and look more natural.

We would like your permission to use these photos or videos for advertising. For example:
